Environmental Science and Engineering. 40th Reunion and Restart Party

Mike and Bart
Fate and Transport of Organic Chemicals in the Aquatic Environment

Written Exam Summary

On the first day Suffet said: Let there be water. And there was water and it was good and it was the mover and shaker. On the second day he said: Let there be bursting bubbles. And he created bursting bubbles. And on the third day he said: Let the models not be reality. And they were not.

The famous 'Whitman Model' - transport mechanisms between environmental compartments
1. I should be panicking, but I don’t feel like it. AW.
2. So you mean like a permanent fish? KAG
3. (Sigh) To To MA! AWM.
4. If you had a speed bump it’s all over. HU.
